

**Subpart I—Allocation of Training Funds to States**

AUTHORITY: 19 U.S.C. 2320; 19 U.S.C. 2296(g); Secretary's Order No. 03-2009, 74 FR 2279, Jan. 14, 2009.

**§618.900 Annual training cap.**

The total amount of payments that may be made for the costs of training will not exceed the cap established under section 236(a)(2)(A) of the Trade Act.

(a) For each of the fiscal years 2009 and 2010, this cap is \$575,000,000; and

(b) For the period beginning October 1, 2010, and ending December 31, 2010, this cap is \$143,750,000.

**§618.910 Distribution of initial allocation of training funds.**

(a) *Initial allocation.* The initial allocation for a fiscal year will total 65 percent of the training funds available for that fiscal year. The Department of Labor (Department) will announce the amount of each State's initial allocation of funds in accordance with the requirements of this section at the beginning of each fiscal year. The Department will determine this initial allocation on the basis of the full amount of the training cap for that year, even if the full amount has not been appropriated to the Department at that time.

(b) *Timing of the distribution of the initial allocation.* The Department will, as soon as practical after the beginning of each fiscal year, distribute the initial allocation announced under paragraph (a) of this section. However, the Department will not distribute the full amount of the initial allocation until it receives the entire fiscal year's appropriation of training funds. If the full year's appropriated amount of training funds is less than the training cap, then the Department will distribute 65 percent of the amount appropriated.

(c) *Hold harmless provision.* Except as provided in paragraph (d) of this section, in no case will the amount of the initial allocation to a State in a fiscal year be less than 25 percent of the initial allocation to that State in the preceding fiscal year.

(d) *Minimum initial allocation.* If a State has an adjusted initial allocation

of less than \$100,000, as calculated in accordance with paragraph (e)(2) of this section, that State will not receive any initial allocation, and the funds that otherwise would have been allocated to that State instead will be allocated among the other States in accordance with this section. A State that does not receive an initial distribution may apply under §618.920(b) for reserve funds to obtain the training funding that it requires.

(e) *Process of determining initial allocation.* (1) The Department will first apply the factors described in paragraph (f) of this section to determine an unadjusted initial allocation for each State.

(2) The Department will then apply the hold harmless provision of paragraph (c) of this section to the unadjusted initial allocation, as follows:

(i) A State whose unadjusted initial allocation is less than its hold harmless amount but is \$100,000 or more, will have its initial allocation adjusted up to its hold harmless amount. If a State's unadjusted allocation is less than \$100,000, the State will receive no initial allocation, in accordance with paragraph (d) of this section. Those funds will be shared among other States as provided in paragraph (e)(3) of this section.

(ii) A State whose unadjusted initial allocation is no less than its hold harmless threshold will receive its hold harmless amount and will also receive an adjustment equal to the State's share of the remaining initial allocation funds, as provided in paragraph (e)(3) of this section.

(3) The initial allocation funds remaining after the adjusted initial allocations are made to those States receiving only their hold harmless amounts, as described in paragraph (e)(2)(i) of this section, will be distributed among the States with unadjusted initial allocations that were no less than their hold harmless amounts, as described in paragraph (e)(2)(ii) of this section (the remaining States). The distribution of the remaining initial allocation funds among the remaining States will be made by reapplying the calculation in paragraph (f) of this section. This recalculation will disregard

States receiving only their hold harmless amount under paragraph (e)(2)(i) of this section, so that the combined percentages of the remaining States total 100 percent.

(f) *Initial allocation factors.* (1) In determining how to make the initial allocation of training funds, the Department will apply, as provided in paragraph (f)(3) of this section, the following factors with respect to each State:

(i) The trend in the number of workers covered by certifications of eligibility during the most recent four consecutive calendar quarters for which data are available. The trend will be established by assigning a greater weight to the most recent quarters, giving those quarters a larger share of the factor;

(ii) The trend in the number of workers participating in training during the most recent four consecutive calendar quarters for which data are available. The trend will be established by assigning a greater weight to the most recent quarters, giving those quarters a larger share of the factor;

(iii) The number of workers estimated to be participating in training during the fiscal year. The estimate will be calculated by dividing the weighted average number of training participants for the State determined in paragraph (f)(1)(ii) of this section by the sum of the weighted averages for all States and multiplying the resulting ratio by the projected national average of training participants for the fiscal year, using the estimates underlying the Department's most recent budget submission or update; and

(iv) The amount of funding estimated to be necessary to provide approved training to such workers during the fiscal year. The estimate will be calculated by multiplying the estimated number of participants in paragraph (f)(1)(iii) of this section by the average training cost for the State. The average training cost will be calculated by dividing total training expenditures for the most recent four quarters by the average number of training participants for the same time period.

(2) The Department may use such other factors that it considers appropriate.

(3) The Department will assign each of the factors listed in paragraphs (f)(1)(i) through (f)(1)(iv) of this section an equal weight. For each of these weighted factors, the Department will determine the national total and each State's percentage of the national total. Based on a State's percentage of each of these weighted factors, the Department will determine the percentage that the State will receive of the amount available for initial allocations. The percentages of initial allocation amounts calculated for all States combined will total 100 percent of initial allocation funds.

(4) The Department may, by administrative guidance published for comment, change the weights provided in paragraphs (f)(1) and (f)(3) of this section, or add additional factors. No such changes or additions will take effect before December 31, 2010.

**§ 618.920 Reserve fund distributions.**

(a) The remaining 35 percent of the training funds for a fiscal year will be held by the Department as a reserve. Reserve funds will be used, as needed, for additional distributions during the remainder of the fiscal year and for those States that do not receive an initial distribution. States may not receive reserve funds for TAA administration or employment and case management services without a request for training funds.

(b) A State requesting reserve funds must demonstrate that at least 50 percent of its training funds have been expended, or that it needs more funds to meet unusual and unexpected events. A State requesting reserve funds also must provide a documented estimate of expected funding needs through the end of the fiscal year. That estimate must be based on an analysis that includes at least the following:

(1) The average cost of training in the State;

(2) The expected number of participants in training through the end of the fiscal year; and

(3) The remaining funds the State has available for training.

**§ 618.930 Second distribution.**

The Department will distribute at least 90 percent of the total training
